Practice Test ... i hadn't taken biology since 9th grade either and I'm 30! The only thing I did have was my first semester in college (jan 2016) I took enviromental biology, so I knew some population biology and ecology terms like alopatric speciation and darwins evolution but I barely even get any of those types of questions on my test, it was all cell biology for humans and plants, and human processes. Just Passed my Biology CLEP in less than 2 weeks of ... Without the proper study, it can be a very hard test to pass. But by using our Biology CLEP study guide, you'll feel totally prepared. The general Biology test is usually worth (depending on your school) six college credits. The major areas on this test include plant & animal cells, DNA/RNA and genetics. Just those three areas usually have people saying "I'll just suffer through the class," but not with our guide. 98% of our students pass this test.
