Independent and Dependent Events Name _____

Date _____ Period _____ Determine whether the scenario involves independent or dependent events. 1) You flip a coin and then roll a fair six-sided die. The coin lands heads-up and the die shows a one. Independent and

Dependent Events - Kuta Two events are said to be independent if the result of the second event is not affected by the result of the first event. The probability of one event does not change the probability of the other event. If A and B are independent events, the probability of both events occurring is the product of the probabilities of the individual events. Independent
