The PM series modules have been offering a reliable, cost-effective interface solution for exit devices for nearly a decade. The PM300 series modules integrate all the upgrades and improvements we've made over the years and are available for almost all exit device applications. Command Access » PM300 Series Three types of Power Input Modules are available for the ROC800: 12 Vdc (PM-12), 24 Vdc (PM-24), and 30 Vdc (PM-30). 12 Volt dc Module With the 12 Vdc module, the ROC800 can accept 12 Vdc (nominal) input power from an AC/DC converter or other 12 Vdc supply. The input source should be fused and connected to the BAT+ and BAT- terminals. ROC800-Series Power Input
