weather stations - Home
Automation ... It has a nice

webinterface that shows the sensor data live, openhab can get the data from there by making an http GET request and parsing the WH2600's reply. The set is intended to upload the sensor data to a personal Wunderground account. Buying advice weatherstation or -binding controlling ... Supported Hardware. WeeWX is known to work with the hardware shown on this page. The Hardware Guide has details about driver capabilities and hardware quirks for drivers that are included in the WeeWX distribution. Additional drivers are listed in the wiki. The hardware comparison shows the specifications for many types of hardware, including those not yet supported by WeeWX. WeeWX: Supported Hardware WeeWX is a free, open

source, software program, written in Python, which interacts with your weather station to produce graphs, reports, and HTML pages. It can optionally publish to weather sites or web servers. It uses modern software concepts, making it simple, robust, and easy to extend. WeeWX: open source weather software Warning! This driver is experimental. It is fully tested and seems to work as designed with the Acurite bridge, the Acurite Access, the Fine Offset HP1000 and WH2600, the Oregon Scientific LW stations, the LaCrosse GW1000U, and many other devices that use the WU protocol.
